Date: August 15, 2021

IRB File No. 20211110

Original IRB approval date: 6/25/2021

Erin,

The review of your request for modification of your previously approved protocol titled "Semantic Priming Across Many Languages (SPAML)" is now complete. The modification has been approved and the approved modification request is attached to this email.

This approval does not extend the approval period of the original protocol..

Please note that HU-IRB approval policies require that you adhere strictly to this modified protocol and that any further modifications must be approved by the IRB before they can be implemented.

Congratulations and best of luck in conducting this research.

Regards,

Glenn

Glenn Mitchell, MD, MPH
