IRB File No. MOD-20211110

The review of your protocol titled “Semantic Priming Across Many Languages (SPAML)” is now complete. The extension of your protocol has been approved for a one-year time period expiring on July 13, 2025.

Please note that HU-IRB approval policies require that you adhere strictly to the protocol as last reviewed by the IRB. Adverse or unexpected events must be reported to the IRB as soon as possible with an indication from the Principal Investigator as to how, in the view of the Principal Investigator, these events affect the continuation of the protocol.

Finally, it is the responsibility of the Principal Investigator to ensure that any required ethical guidelines and approvals of any outside facilities or institutions are obtained and filed with the IRB prior to the initiation of any research.

Best,

Kayden Jordan, PhD (they/them)
Assistant Professor of Social Analytics
IRB Chair, Harrisburg University of Science and Technology
Associate Editor, Psychology of Language and Communication
